Volume 61

Differences in skin carcinogenesis by methylnitrosourea between mice of several strains W. Lijinsky, B.J. Thomas and R.M. Kovatch (Frederick, MD).....	1–5
Combination of the minor groove-binder U73-975 or the intercalator mitoxantrone with antitumor alkylating agents in MCF-7 or MCF-7/CP cells L. Ayash, T. Korbut, T.S. Herman and B.A. Teicher (Boston, MA).....	7–14
Lung adenoma structure among inbred strains of mice: the pulmonary adenoma histologic type (<i>Pah</i>) genes L.G. Thaete, M.N. Nesbitt and A.M. Malkinson (Boulder, CO and La Jolla, CA).....	15–20
Inhibition of mouse skin tumor promotion by tenuazonic acid M. Antony, K.P. Gupta, K.K. Janardanan and N.K. Mehrotra (Lucknow, India).....	21–25
Prevention by chemopreventive agents of azoxymethane-induced foci of aberrant crypts in rat colon M.A. Pereira and M.D. Khoury (Cincinnati, OH).....	27–33
Tumor localization of monoclonal antibodies against human renal carcinoma in a xenograft model A.K. Guha, T. Ghose, M. Singh, J. Aquino, A.H. Blair, S.J. Luner and M. Mammen, (Halifax, Canada).....	35–43
Augmentation of cytotoxicity using combinations of interferons (types I and II), tumor necrosis factor- α , and tamoxifen in MCF-7 cells R.K. Tiwari, G.Y. Wong, J. Liu, D. Miller and M.P. Osborne (New York, NY).....	45–52
Metastases from fresh human non-small cell lung cancers propagated in nude mice W.G. Hammond, J.R. Benfield and R.L. Teplitz (Davis, CA).....	53–60
Effects of 3-aminobenzamide on the post-initiation phase of <i>N</i> -nitrosobis(2-oxopropyl)amine induced pancreatic carcinogenesis in Syrian hamsters T. Tsujiuchi, K. Mizumoto, M. Tsutsumi, A. Denda, T. Amanuma, S. Kondoh and Y. Konishi (Nara and Fukuoka, Japan).....	61–66
Induced morphological changes in human small cell lung carcinoma cells R.C. McGarry, V. Feyles, A. Tuff, J. Chapman and L.M. Jerry (Alberta, Canada).....	67–74
Low-frequency electromagnetic radiation enhances the induction of rat mammary tumors by nitrosomethyl urea D.Sh. Beniashvili, V.G. Bilanishvili and M.Z. Menabde (Tbilisi, Republic of Georgia, U.S.S.R.).....	75–79
Relationship between dietary, serum, and tissue levels of carotenoids R.V. Cooney, J.S. Bertram, J.H. Hankin, L.N. Kolonel, A. Miyake, K. Billings and W. Bourne (Honolulu, HI).....	81–87
B16 melanoma response in vivo to photochemotherapy with mitoxantrone and red light A. Andreoni, G.Canti, G. Fabbrocini, M. Mastrocinque and E. Quarto (Naples and Milan, Italy).....	89–94
Aberrant expression of the <i>c-erbB-2/neu</i> protooncogene in ovarian cancer M.-C. Hung, X. Zhang, D.-H. Yan, H.-Z. Zhang, G. He, T. Zhang and D. Shi (Houston, TX and Shanghai, People's Republic of China).....	95–103
Protection against 7,12-dimethylbenzanthracene-induced tumour initiation by protein A in mouse skin S. Kumar, Y. Shukla, A.K. Prasad, A.S. Verma, P.D. Dwivedi, N.K. Mehrotra and P.K. Ray (Lucknow, India).....	105–110
Human herpesvirus-6: tumorigenicity and tumor infiltrating lymphocytes A. Razzaque and R.K. Puri (Bethesda, MD).....	111–118
Detection of transforming oncogenes in rat colon tumors induced by direct perfusion with <i>N</i> -methyl- <i>N</i> -nitrosourea R.J. Alexander, S.J. Garte, R.F. Raicht and J.N. Buxbaum (New York, NY).....	119–128

The effect of ellagic acid on xenobiotic metabolism by cytochrome P-450IIE1 and nitrosodimethylamine mutagenicity	
T. Wilson, M.J. Lewis, K.L. Cha and B. Gold (Omaha, NE)	129 - 134
Systemic modulation by ultraviolet irradiation of cutaneous N-methyl-N'-nitro-N-nitrosoguanidine-induced carcinogenesis	
H.L. Gensler (Tucson, AZ)	135 - 140
Milk cream does not enhance 2,7-dimethylbenz[a]anthracene-induced mammary tumorigenesis	
S. Yanagi, M. Yamashita, M. Tsuyuki, J. Morimoto, S. Haga and S. Imai (Nara, Japan)	141 - 145
Circumvention of Adriamycin resistance: effect of 2-methyl-1,4-naphthoquinone (vitamin K ₃) on drug cytotoxicity in sensitive and MDR P388 leukemia cells	
H.K. Parekh, H. Mansuri-Torshizi, T.S. Srivastava and M.P. Chitnis (Bombay, India)	147 - 156
Flow cytometric analysis of tumour infiltrating lymphocyte activation and tumour cell MHC Class I and II expression in breast cancer patients	
P. Whitford, W.D. George and A.M. Campbell (Glasgow, U.K.)	157 - 164
Methylation of rat and mouse DNA by the mushroom poison gyromitrin and its metabolite monomethylhydrazine	
K. Bergman and K.-E. Hellenäs (Uppsala, Sweden)	165 - 170
Inhibitory effect of prostaglandin oligomeric derivatives on 9,10-dimethyl-1,2-benzanthracene-induced hamster lingual carcinomas	
S. Hidaka, N. Morita, S.T. Ohnishi, Y. Oga and K. Abe (Fukuoka, Japan and King of Prussia, PA)	171 - 176
Induction of colorectal cancer in rats by 20-methylcholanthrene	
R.N. Baral and P. Maity (Calcutta, India)	177 - 183
Announcement	185
Modulatory influence of injectable contraceptive steroid medroxyprogesterone acetate on methylcholanthrene-induced carcinogenesis in the uterine cervix of mouse	
S.P. Hussain and A.R. Rao (New Delhi, India)	187 - 193
Piperine, a plant alkaloid of the piper species, enhances the bioavailability of aflatoxin B ₁ in rat tissues	
A. Allameh, M. Saxena, G. Biswas, H.G. Raj, J. Singh and N. Srivastava (Delhi, India)	195 - 199
Immunquantitation of Von Willebrand factor (factor VIII-related antigen) in vinyl chloride exposed workers	
O. Froment, M.-J. Marion, D. Lepot, J.-C. Contassot and C. Trépo (Lyon and Saint-Fons, France)	201 - 206
Differences in metabolic activation of dibenzo[a,e]fluoranthene characterized by ³² P-postlabeling in two mouse fibroblast models	
O. Périn-Roussel, N. Baral, M.J. Plessis and F. Zajdela (Cedex, France)	207 - 213
γ-Interferon and retinoic acid synergize in inhibiting the growth of human neuroblastoma cells in nude mice	
P. Cornaglia-Ferraris, G.L. Mariottini, and M. Ponzoni (Genoa, Italy)	215 - 220
Changes in alanine transport in plasma membrane vesicles from rat liver during the early stages of diethylnitrosamine-induced hepatocarcinogenesis	
M.G. Leonardi and R. Comolli (Milano, Italy)	221 - 227
Lack of modulation effects of praziquantel on DMN-induced lesion development in the Syrian hamster liver	
W. Thamavit, M.A. Moore, S. Ruchirawat and N. Ito (Bangkok, Thailand and Nagoya, Japan)	219 - 232
Stimulation of DNA synthesis by rat plasma following in vivo treatment with three liver mitogens	
P. Coni, G. Pichiri-Coni, G.M. Ledda-Columbano, E. Semple, S. Rajalakshmi, P.M. Rao, D.S.R. Sarma and A. Columbano (Cagliari, Italy and Ontario, Canada)	233 - 238
The enzymatic activities of branched-chain amino acid catabolism in tumour-bearing rats	
J.M. Argilés and F.J. López-Soriano (Barcelona, Spain)	239 - 242
Cystatins and stefins in ascites fluid from ovarian carcinoma	
T.T. Lah, M. Kokalj-Kunovar, L. Kastelic, J. Babnik, A. Stofla, S. Rainer and V. Turk (Slovenia, Yugoslavia)	243 - 253
Monitoring of urinary excretion of modified nucleosides in cancer patients using a set of six monoclonal antibodies	
C. Reynaud, C. Bruno, P. Boullanger, J. Grange, S. Barbesti and A. Niveleau (Cedex, France and Milano, Italy)	255 - 262

Fractionated treatment of CaD2 tumors in mice sensitized with aluminium phthlocyanine tetrasulfonate	
H. Anholt and J. Moan (Oslo, Norway).....	263-267
Subject Index Volume 61.....	269-272
Author Index Volume 61.....	273-274
Contents Volume 61.....	275-277
